2. Burp Suite for Web Traffic Analysis:

The screenshot displays the Burp Suite interface on the left and a web browser on the right. The browser shows the DVWA login page with a 'CSRF token is incorrect' error message. The Burp Suite interface shows the intercepted POST request to localhost/DVWA-master/login.php. The request body is visible in the 'Request' tab, showing the login attempt with username 'admin' and password 'password'.
